

Patient Sign-In Forms

Now you can confidentially sign in your patients! Each patient completes the next available line and removes the number to the left of the name. They can then wait to be called by either name or number. We produce Patient Sign-In forms in a variety of creative constructions.

Applications

- Anyone who has the need for a confidential sign in that is HIPAA compliant.

Features

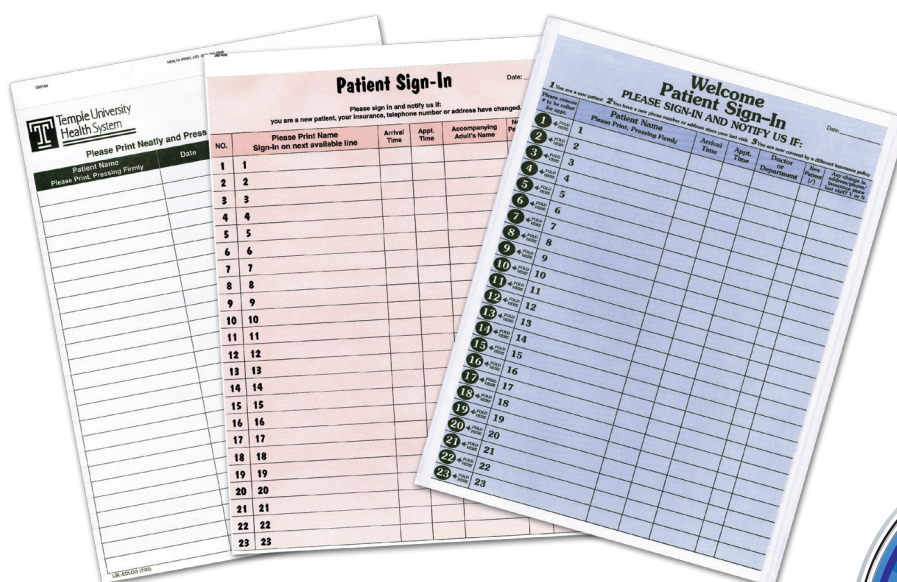

- 8 1/2" x 11 – unit sets with side stubs or top/bottom stubs
- EDP Perm label – 17# self contained paper
- 23 horizontal labels that peel off
- Small tag with number, so a number is called out, not the patient's name
- Printing on liner to direct patient to sign the next line

Markets

- Doctor's offices
- Dentist's offices
- Hospitals
- Labs

Benefits

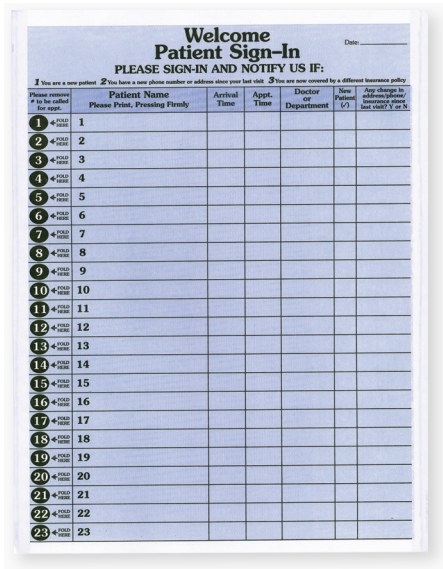

- HIPAA compliant (refer to HIPAA privacy rule, section 164.502)
- Second sheet is a complete record of who was seen that day
- Option to call the patient by name or number
- Carbonless
- Special back printing to prevent show through on liner
- Stock and custom options available

LaserBand®

No other I. D. band works as well as LaserBand®. The misidentification of healthcare patients is a medical dilemma that drugs or surgery can't cure. According to a 1999 report by the Institute of Medicine, medical errors are the 8th leading cause of death for Americans - more than motor vehicle accidents, breast cancer or AIDS. LaserBand® wristbands eliminate these errors.

Applications

All-in-one, laser generated, patient identification bracelet with admission labels for hospitals and medical clinics. Custom configuration available upon request.

Features

- Convenient 5-7 hole punching
- Not printer dependent
- Standard 8 1/2" by 11" size with our A4 (8 1/2" x 11 5/8") version available

Markets

- Hospitals
- Medical clinics
- Outpatient surgery centers
- Nursing homes

Benefits

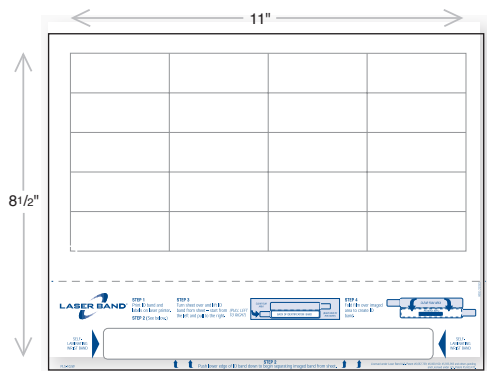

- Identification bracelet and 20 additional labels can be imaged & bar coded at one time
- No need for customer to buy special laser printer or special trays
- Protects imaged information from being scratched off and provides a moisture barrier
- I. D. bracelet fits small, medium & large wrists
- Large fonts and bar codes improve patient identification
- Patented product – helps you maintain reorder business
- Tear resistant

Medical Mount Sheets

Applications

Healthcare forms used to hold paper rhythm strips (also known as EKG strips) onto a carrier to allow them to be filed in a patient's chart. The rhythm strips are secured to the form using adhesive covered with a throw-away liner. Typically hand-filled but laser compatible versions also available.

Features

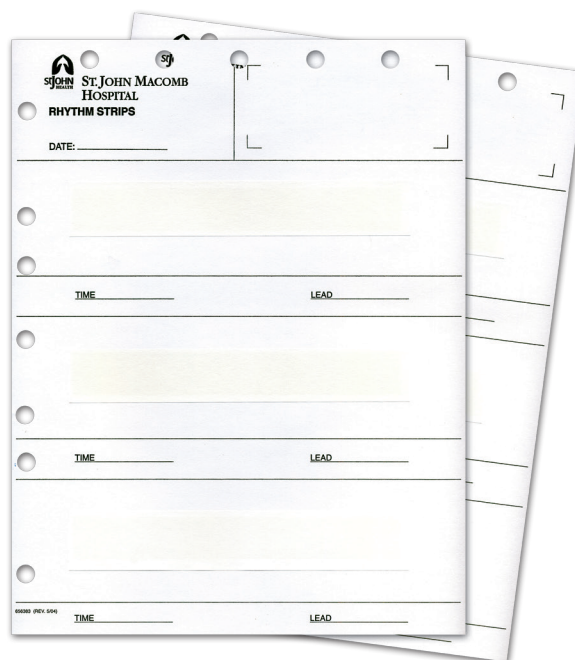

- Easy to remove liner
- Aggressive adhesive
- Single or multiple strips of adhesive in any position
- Laser safe construction available
- Custom print on liner

Markets

- Hospitals
- Medical clinics
- Out-patient surgery centers
- Urgent care centers
- Rehabilitation centers

Benefits

- Design flexibility due to in-line production options
- Smooth feeding through printers
- Adaptable to other situations where a laser printable transfer tape is desired

Blood Bag Labels

The critical components required for labels to meet FDA and Red Cross requirements include specific adhesive, face stock and print coatings. This offering meets all the FDA 21 and CFR 175 labeling requirements.

Applications

One ply labels to be applied directly to the blood or IV bag. Also available in the piggyback format for application to a form.

Features

- For collection and distribution of blood donations
- Plastic blood bag compatible
- Custom sizes available
- Printed or blank
- 1 ply or piggyback
- Rolls or fan folded formats available
- Thermal printable

Markets

- Healthcare accounts
- Hospitals
- Medical clinics
- Outpatient surgery centers
- Nursing homes
- Daycare centers
- Dental appliance manufacturers
- Retail pharmacies
- Correctional facilities

Benefits

- Meets FDA 21 CFR 175 labeling requirements
- FDA compliant for direct food contact
- Red Cross compliant
- Non migrating adhesive
- Thermal transfer coating
- Excellent chemical and moisture resistance
- Tear resistant
